WHAT KIND OF SHORT FILM CAN PARTICIPATE?

The Author/Producer/Distributor can submit as many short films as they want that were produced after January 1, 2016.

Important: The short films are audiovisual productions of **up to 25 minutes** and must be fiction, animation or documentary. The video formats recommended by this festival are mov, mp4 and with a resolution of 1080, 16:9 frame. The recommended sound format is 2:1 stereo.

In the Mobile Film Maker category, the same rules apply as for the rest, but with the following conditions: only short films made by smartphones are allowed, with the obligatory indication of the make and model; the use of mobile devices (drones, action cameras, etc.) is allowed for a maximum of 10% of the total duration of the short film; the duration **will be up to 15 minutes**; the use of external elements (microphones, dollies lighting) is allowed during the shooting and in the postproduction the use of editing programs or image treatments that the participant considers appropriate.

Failure to indicate the make and model of the smartphone will automatically disqualify the short film, and the prize may be lost at the discretion of the Jury and the FICIE Organization.

Important: Reduced, modified or extended versions of other short films will not be admitted, nor can they have been presented in previous editions of FICIE or with another title. Commercial spots, video clips or trailers of other films or unfinished works (work in progress) will not be admitted either.

Important: If your language is NOT Spanish, you must have the subtitles inserted in Spanish, or the subtitles separately in srt. If a short film in a non-Spanish language is selected, you must provide the Spanish subtitles in .srt format, otherwise you will be disqualified.

There, the rules of this edition of the FICIE will also be available in Spanish and English.

At the time of registration in Festhome, the Author/Producer/Distributor will have a menu to choose from in the category you want to register your short films.

WHEN, WHAT SHORT FILMS ARE SCREENED AND WHERE?

Important: The Selection Jury will select the short films that will be part of the Official Section. Their decision will be known in the **second half of June 2020**. All those short films that have been finally selected will be notified of their participation at least three weeks before the start of the screenings.

Important: The screenings of the Official Competitive Section and the Mostra't Sections (non-competitive) will take place from 24 to 30 July 2020, from 9:45 p.m. until midnight (spanish time), approximately, in the "Hort del Xocolater" Park (centre of the "Caja Mediterráneo" Foundation). At the moment of communicating the selection, the Organization will send each of the finalists a pdf of the projection conditions and a reminder of the optimal audio and video formats and the detail of the place of projection. The "Hort del Xocolater" park (Elche) has a capacity and attendance of one thousand people. In the place of projection of the "Arenales del Sol" Beach (Elche) there is a capacity and assistance of about three hundred people.

The Mostra't Sections (Mostra't Jove, Mostra't UMH and Mostra't Elx) are NOT competitive and their aim is to support short films made by authors from Elche, associations, students from educational centres and universities of the Communication Degree of the "Miguel Hernández" University of Elche. The aim is to promote the values of equality, integration and training in local audiovisual production for both future filmmakers and young people as a film consuming public. These screenings will be held in the same places and on the same dates but from 9:30 pm to 9:45 pm (spanish time), approximately.

The Organization of FICIE will publish the schedule and programme of the screenings in its written and online media and on social networks.

HOW IS IT SCREENED?

Important: Once the short films that will be part of the Official Section are known, the Organization will contact the Author/Producer/Distributor to request the high quality projection copies, which must be in their possession before the end of the first half of July 2020 and, ideally, about three weeks before the start of the screenings.

The selected short films must be identical in length, content and title to those presented at Festhome . Non-compliance will lead to disqualification.

Important: The Organization is committed to the highest quality in the screenings and will guarantee the satisfaction of the Author/Producer/Distributor. The video formats recommended by this festival are mov, mp4 and 1080 resolution, 16:9 frame. The sound format is 2:1 stereo. The recommended digital file weight for optimal projection should not exceed 3 GB. When communicating the selection, the Organization will send each of the finalists a pdf of the projection conditions and a reminder of the optimal audio and video formats.

Important: As indicated above, for those short films in non-spanish language and that have been selected at this time will be required to submit copy with subtitles inserted or minimum in .srt format separately. Otherwise they will be disqualified and cannot be screened.

The form of sending will be online: Dropbox, Google Drive, Onedrive, Wetransfer, etc., but in the case of sending originals in physical format (pendrive) of the highest quality the Organization will ensure the care of the materials sent.

Important: The Organization wants to facilitate the presentation and networking of the selected. To this end, it will organize a series of activities that will be published on FICIE's official website at www.festivalcineelx.es. For this purpose, the Organization will offer a one-night hotel stay to the Author/Distributor/Producer of the spanish selected film plus one accompanying person, informing them of the day their short film will be screened.
